

SHEMA IRADUKUNDA Daniel

FRONTEND ENGINEER

ABOUT ME

I'm a Frontend Engineer, UI/UX Designer, and Graphic Designer with a strong focus on front-end development and user-centered design. I work with TypeScript, React, Tailwind CSS, JavaScript, and Figma to create responsive, intuitive, and visually engaging digital experiences. With a background in both design and engineering, I bring a balanced approach to building clean, accessible, and scalable interfaces. I've completed the ALX Front-End and ProDev Front-End programs, where I honed my skills in modern web development, collaboration, and problem-solving.

PERSONAL DETAILS

- Kigali, Rwanda
- danieliradukunda00@gmail.com

EXPERIENCE

- FRONT-END ENGINEER – ALX PRODEV PROGRAM** June 2025 - Oct 2025

 - Successfully completed the ALX ProDev Front-End program, enhancing my technical and professional skills through team projects, coding challenges, and real-world simulations focused on industry readiness.
 - Built responsive and dynamic web interfaces using modern front-end frameworks.
 - Tested REST API endpoints using Postman and DevTools Network tab to verify request/response behavior.
 - Tools & Technologies: Next.js, React.js, React Native, REST APIs, Hooks, State Management, Tailwind CSS, JavaScript, Git/GitHub, UI/UIX Designing.
- FRONT-END ENGINEER** May 2023 - Aug 2023

 - Completed a rigorous training program focused on frontend development using modern JavaScript frameworks.
 - Collaborated with peers on projects that simulated real-world development workflows.
 - Strengthened skills in clean code practices, Git/GitHub, and UI/UX fundamentals.
- QA SUPPORT, GRAPHIC DESIGNER AND CUSTOMER SUPPORT** Oct 2021 - Nov 2022

 - Conducted manual testing for the delivery, riders and staff applications, identifying bugs and gathering user experience feedback to improve overall product quality.
 - Used Chrome DevTools to inspect network requests, debug frontend issues, and validate API responses
 - Designed promotional materials and digital content for various platforms.
 - Ensured all visuals aligned with the company's branding and messaging.
- GRAPHIC DESIGNER AND CUSTOMER SUPPORT** Mar 2021 - Jan 2022

 - Performing Manual QA testing on the company's delivery application, ensuring features worked as expected across devices.
 - Identified bugs, documented issues, and reported them to the engineering team for fixes.
 - Used Chrome DevTools to inspect network requests, debug frontend issues, and validate API responses
 - Collaborated with users to understand their real experience and gather feedback to improve usability.
 - Helped improve the overall user journey by spotting UX issues during testing.
 - Designed promotional materials and digital content for various platforms.
 - Ensured all visuals aligned with the company's branding and messaging.

EDUCATION

- DIPLOMA** 2017 - 2019

SKILLS

React.js	Next.js	TypeScript
Tailwind	JavaScript	REST APIs
Cypress	Postman	Figma
GitHub	Browser DevTools	Responsive Web Design
Git	Debugging	HTML
CSS	Bug Reporting
